EXCITING WORLDWIDE CME LOCATIONS

Lake Tahoe – One of America’s Premiere Summer Resorts

Lake Tahoe is the highest alpine lake in the U.S. and the second largest alpine lake in the world. Tauck is honored to promote this special retreat above Lake Tahoe! For more information about this special retreat, please contact your Tauck Travel Counselor (530-582-9170) or visit www.wildernessmedicine.com for more information.

PROGRAM OBJECTIVE

This activity has been planned and implemented in accordance with the Essential Areas and Policies and Standards for the provision of medical care and education. This program has been reviewed and is acceptable for up to 23 hours of ACEP Category I credit. In accordance with ACCME Standards and ACEP policy, all faculty involved in the design and implementation of this program must disclose all financial and other relevant conflicts of interest. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Target Audience:

Primary care physicians, nurses, physician assistants, and other health care providers who might encounter patients in remote settings with wilderness-related injuries, illnesses, or emergencies, will benefit from this program.

1) To educate participants in the pathophysiology, recognition, and treatment of a variety of medical problems encountered in wilderness settings.

2) To help establish a set of treatment priorities for care of the sick or injured in wilderness settings.

3) To educate participants in basic aspects of improvised care, rescue, and evacuation.

4) To educate participants in the pathophysiology, recognition, and treatment of common medical problems encountered in wilderness settings.

5) To educate participants about psychological aspects of wilderness emergencies.

6) To educate participants about some of the current recommendations regarding prophylaxis and treatment of infectious diseases and injuries encountered in wilderness settings.
